

Get started with SSG Skillnation

This guide will help you in four simple steps!

1
The education
is complete

2
Invitation by email

3
Sign up

4
View your skills

1. Education completed / delivery of training or certificate

Give your consent so that the education provider can send your approved result to SSG Skillnation.

2. You will receive an invitation

Once your education result has been registered, you will receive an email invitation from SSG Skillnation. The email will be sent from "message@ssgsolutions.com" with the sender name "SSG Information", and the subject line "Invitation".

Note: If you cannot find the email, check whether it has been caught in your junk folder, spam filter, or an existing mailbox/Outlook rule.

3. Complete your registration

Click the link in the invitation email and follow the instructions to create or activate your account in SSG Skillnation.

You may be asked to confirm your identity and contact details so that your education result is linked to the correct person.

4. View your skills

Once registration is complete, you can log in to SSG Skillnation and view your completed training courses and certifications digitally. This gives you a personal overview of your competences and makes it easier to present them when required at an industrial site.

Benefits of SSG Skillnation

- Collect your competences digitally in one place.
- Access your education and certification records whenever you need them.
- Makes it easier to demonstrate that you meet the requirements at different industrial sites.
- Keep track of your qualifications over time.
- Use the service at no extra cost as an individual.

What does it cost?

SSG Skillnation is available to you as an individual at **no extra cost**. If your employer would like to register the company on the platform in order to get an overview of all employees' competences, this costs 3 EUR per month per employee.

Need help?
