

# **SSG STANDARDS PROJECT DOCUMENTS**

---

**STANDARD SOLUTIONS GROUP**

# PROJECT DOCUMENTS

A set of SSG Standards and proprietary documents is required for a project. Moreover, all documents need to be archived when the project is complete.

Using this service means that everyone involved can be certain that they have access to the right documentation throughout the project.

When the project is complete, the documents will be kept in the archive and only the people who will be administering the results will be able to access them.

# NEW PROJECT

If you want to add a new project, click on the *Nytt projekt* [New project] button on your homepage.

You then have to enter the information required.

Any information that you want to pass on to participants can be entered in the *Beskrivning* [Description] field.

# GETTING STARTED

When you have added participants and documents and the information is complete, click on the *Starta genomförande* [Start implementation] button. An email will then be sent to the relevant participants.

You can also add participants and documents later on if necessary.

# ONGOING PROJECTS

If you want to work with an ongoing project instead, click on the project name on your homepage. This will display more detailed information.

You can retrieve both participants and documents from here. When you add a new participant or new documents, emails will be sent out to the relevant participants.

You can also open and view archived projects.

# LEVELS

Three service levels are available. The level you need is dependent on how many participants you need to add, along with how many standard documents you need to share with them, and which ones these are.

These standard documents are graded according to a system that corresponds to the prices applicable to each standard in the SSG online shop. There is a maximum score for standard documents at each level, along with a maximum number of potential participants.

There are no limits on the number of projects per level.

# PROJECT PARTICIPANTS

STANDARD SOLUTIONS GROUP

SETTING NEW STANDARDS / [SSG.SE](http://SSG.SE)

# REGISTRATION

As a project participant, you will receive a link to the service in an email.

You have to be registered in order to view the information available for the project. You will be able to choose from two options, depending on whether you are already an SSG user or whether you are a new user that needs to create a new account.

Hello!

You are assigned access to the project Demoprojekt 2 at "SSG".

To be able to access the information contained in the project, you must be registered.

You will need to register a new user with the e-mail address "[name@ssg.se](mailto:name@ssg.se)".

Please register on this link: <https://prolog.ssg.se>

If you have any questions, please contact our support.

# PROJECT PARTICIPANTS

Project participants see this homepage. Here, you can click on the documents that you need to view and also read any information that your project manager wants to pass on.

The screenshot displays the user interface for 'SSG Standard / Projektdokument'. On the left is a dark sidebar with navigation options: 'Projektledare' (with a briefcase icon), 'Deltagare' (with a person icon), and 'Logga ut' (with a door icon). A back arrow is also visible in the sidebar. The main content area is titled 'Mina projekt' and contains a table with the following data:

Demoprojekt 2		Visa
Projekt 2		
<b>Dokument</b>		
<a href="#">SSG7361-1</a> Blindfläns. DIN 2527B. Kolstål. PN 16		

# DOCUMENTS

SSG documents are displayed in a resolution that allows them to be viewed on screen.

Other documents that the project manager has decided to add are displayed in the format in which they were added.

SSG DEMO / Demoprojekt 3

SSG 7361E

Date	Edition	Designation	Page
2010-02-01	1	TKRR	1 (3)

Blind flange. DIN 2527B. Carbon steel. PN 16

#### Orientation

This standard is a component of the standard for PED pipe classes, SSG 7851E.

For a list of existing and future SSG PED pipe classes, see SSG 7829E.

The blind flange has been calculated according to EU Directive PED 97/23/EC. For pressure/temperature figures see SSG 7822E or SS-EN 1092:2001, table 15, PN 16. Material group 3E0.

#### 1 Designation

Blind flange SSG 7361E - DN - Material

#### 1.1 Example

Blind flange SSG 7361E - 200 - P265GH as per SS-EN 10 028-2
